Bitack."

Mr. Shirley Tromenrae,

This argent advice is given by physicians every day, in every civilised country, to sufferers from Nervous Debility, Brain-fag, Lack of Vitality, Sleeplessness, Disordered Digestion, Peverty of Blood and various Wasting Diseases."

Physicians know that Sanatogen is a true scientific < compound of organic phosphorus and pure concentrated proteid, forming a new substance which to eagerly and completely absorbed by the tissues and possesses unique tonic and reconstructive qualities.

The Supreme Restorative.

Physicians can speak from experience of the great recuperative effects which Sanatogen has upon the brain, nerves, blood and muscles. They have watched its revivifying action upon people whose nervous. strength has been depleted by over-work, worry or disease. They have noted how Sanatogen gives lasting benefit, how it regenerates the appetite and digestion, brings back the bloom to the cheek, replaces wakeful nights by sound refreshing sleep. in short, enables the human machinery to perform its functions so perfectly that the patient loses his depression of spirits, gains confidence and courage, and finds life again worth living.

Fighting Malaria and Dysentery.

Apart from its value as a general tonic, Sanatogen is of the greatest service to the physician in fighting 'Malarin, Dysentery and other scourges of tropical climates.

On this subject, Dr. H. H. W. H., of Babugarah, United Provinces, writes :- " I have much pleasure in certifying to the value of Sanatogen in cases of Dysentery, Enteric Fever and other exhausting diseases. I have used it regularly in my practice for the past two years, and in no single instance have I been disappointed with its results. I can honcethy affirm that many of my worst cases owe their recovery to Sanatogen,"

Try Sanatogen To-day.

At the head offices of the manufacturers of Sanatogen there are filed more than fourteen thousand letters from practising physicians who certify to the value of Sanatogen. Truly a magnificent monument to the value of this unique ionic-food !

But no less impressive is the enthusiastic testimony of patients themselves. Thousands of well-known people in every walk of life have publicly testified to the wonderful benefits they have received from Sanatogen, and a few of their letters are reproduced here.

Begin to take Sanatogen to-day, and thus lay the foundation of new health and nerve force. You can get Sanatogen in Hong Kong from Messrs. A. S. Watson & Co.; The Slucere Con Ltd., 215/21, Vosveux Road; and of all Chemists.

WOMANHOOD SUFFRAGE.

Frequent interruption, presumably by sympathisers with the agitation for the extension of the suffrage to women, led Mr. Lloyd open to conjecture. George at Bath to declare that such exhibitions of temper were more anti-Liberal than pro-suffrage. It is seldom that we find ourselves in agreement with the Chanceller of the Exchequer, but on this occasion we are in entire accord with his sentiments. Indeed we go further than that astute-politician deeme it advisable to go .- He-long ago made up his mind that womanhood suffrage will ultimately be granted and has discounted any possible ill results that might follow his chief's open aversion to this. extension of the Parliamentary franchise, by ranging himself in the ranks of its supporters. A member of a Cabinet that is mainly anti-suffrage, he has declared himself personally pro-mifrage—a situation that might be embarrass-... ing to a sensitive man.

There is no proof that the idyllic condition prophesied by Mr. Lloyd George would ensue were women to share in the making and the administration of the laws. He thinks that there would be no danger of Europe being "drenched in blood" were women possessed of the vote. This we take leave to think is a matter of opinion. During the terrible days of the French revolution the shrillest and most persistent shrieks for blood-more blood-came from the women, and there is reason to believe that many of the horrors of who were utterly carried away and out of themselves by the frenzy visional military authorities will were up in the Chinese city and line of the frenzy visional military authorities will were up in the Chinese city and line of themselves by the frenzy visional military authorities will were up in the Chinese city and line of themselves by the frenzy visional military authorities will were up in the Chinese city and line of themselves by the frenzy visional military authorities will were up in the Chinese city and line of themselves by the frenzy visional military authorities will were up in the Chinese city and line of themselves by the frenzy visional military authorities will were up in the Chinese city and line of the camp shortly after response that the chinese city and line of the camp shortly after response the connection with the Chinese city and line of the camp shortly after response the connection with the Chinese city and line of the camp shortly after response the connection with the Chinese city and line of the camp shortly after response to the connection with the Chinese city and line of the camp shortly after response to the connection with the Chinese city and line of the camp shortly after response to the connection with the Chinese city and line of the connection with the Chinese city and line of the chinese city and line of the connection with the Chinese city and line of the chinese city and l that possessed France. Our point is. rather that women are more likely to be carried away by impulse than men and that the danger of war may not only be decreased by ment has not complied with the abrest of the revolutionists' front; and offering as security shares in the grant of the right to vote and to legislate to women, but that it application submitted by the while the three cruisers which the steamship company, reports may even be increased. Mr. Lloyd George also declares that womanhood suffrage has been a success in the Colonies. This again is a The general opinion among the left when he took leave at Kinkmatter of opinion. The weight of evidence seems to be that the female vote has had little or no effect in Australia, where the experiment has been tried for some years. LIFE WITHOUT HEALTH IS LIVING DEATH.

A BAIL MANURERVE FOOD

"The Telegraph" does not hold Itself responsible for any of the above quotations.

This remarkable compound, the latest discovery of modern times, is without equal in all cases of defective nerve and brain power, whether imbreed by worry, overwork, dissipation, or other fufficaces. Secretainest, polynatical defective circulation, mercular debility, premature decay or defectory of the vital forces, loss of vitality, hurasame discours, restlessment that can settle to nothing, treatability of temper, female-complaints; hysteria, backtone, bearing down, semations, wanting discours, consumption, might smeats, maddy, high-coloured mater, &c., are all so many different phases of brain and nerve wreckage and exhaustion, the cause of by far the greater of the misery, til-health, and despondency by which we are confronted on every hand, that an only be successfully combated by the use of this wonderful and highly scientific preparation, thereby up the system generally, it gives tone to the exhausted nerves, arrests all weakening as ting discharges, restores the failing energies, and imparts new life and vigour to those who had so recently scened played out, used up and valoriess. Bottles Trice 23, 24.

WITHOUT PURE BLOOD HEALTH IS IMPOSSIBLE.

To some in it inhibited into the system than it permentes and percentes to the minutest capilates, overcoming and expelling discass, wheresoever and in whatsoever torm met with tremoving it inhibites, pumples, semif, sensory, serolulous and glandular swellings, discolarations, roughness, the feet white patches, see. Its effects are almost magical in the freatment of gout, themselves, then, luminage, pains and swellings of the joints, discharges, blood polson, serems, least surprises, but legs, bad breasts, shecesses, telects, wounds, sores, goltre or Derbyshire mack, it is proved the general health, and quickly removes long-standing broughtis, asthma, and hadding, standing, anapodic cough, for other the procursor of consumption. Naval economists will of course "growse" at the fact which is disclosed in the return of expenditure of the principal naval powers that we are spending this year on the fleet slightly more than twice as much as Germany. This simple fact is sufficient to cause people "furiously to think," but_a_moment's-reflection-putsthe position in a much more moderate light. The British Navy Estimates have to bear many heavy charges for which no corresponding entries are to befound in Germany's expenditure, as for instance, interest on loans, yes, all of which in Germany come out of the Civil votes. There are also forms of expenditure in connection with the British fleet including in particular the maintenance of the personnel. and the cost of victualling, which are necessarily far in excess of the corresponding sums spent by Germany. These differences two years ago were officially computed to amount to nearly eleven millions storling, and the amount has certainly not decreased in the me in-time. The real expenditure upon the material of the British Navy is therefore this year arrived, Consignees of Curse are approximately £23,000,000, and deducting from the Gorman estimates the sums appropriated for fortifications, garrisons, etc., for for which no corresponding expenditure is borne in the British estimates, Germany's actual expenditure is reduced to something like £21,500,000; so that for really practical purposes the difference is only about £13,000-000 instead of Great Britain spending twice as much as der-
